Joseph Donn Penuliar

Software Engineer at Facebook
Santa Clara, California, United States

Summary

Hey Im Joseph Donn Penuliar. People mostly call me JD. Great to make your virtual acquaintance.

Experienced software engineer with 7 years of diverse expertise and a goal-oriented mindset. Skilled in researching and/or developing innovative solutions to complex problems, I have a track record of delivering high-quality products and meeting roadmaps. Adaptable and continuously learning, I excel at collaborating with cross-functional teams and translating business needs into effective development plans.
